PROFILE

MERN Stack Developer with 1+ year of hands-on experience building and deploying scalable, production-ready web applications. Proficient in Node.js, Express.js, MongoDB, and React.js with strong expertise in REST API design, JWT authentication, and role-based access control. Delivered 10+ live projects — Inventry System , multi-panel B2B/B2C platforms, cab booking systems, and corporate portals.

WORK EXPERIENCE

Full Stack Developer — Apprenticeship 2025 · 8 Months

DigiCoders Technologies Pvt. Ltd., Lucknow

- Designed and developed 10+ production-deployed web applications including Inventry systems, multi-panel B2B/B2C platforms, Cab booking systems, and corporate portals.
- Built secure REST APIs with JWT authentication and Role-Based Access Control (RBAC) for platforms with up to 10 distinct user role panels.
- Handled complete development cycle — MongoDB schema design, Node.js/Express.js backend, React.js frontend, deployment on Vercel and Render with custom domains.
- Collaborated with senior developers on requirement analysis, feature development, debugging, and performance optimization.

Summer Training — Python with Django 2024

DigiCoders Technologies Pvt. Ltd., Lucknow

- Built a Hospital Management System as capstone project — managing patients, doctors, appointments, billing, and medical records.
